

This updated map improves upon the one submitted on April 30, 2023. It contains 20 districts, for the final implementation of an elected school board, pursuant to Public Act 102-0177.

Like the previous version, this updated map has 6 majority-Hispanic districts, 6 majority-Black districts, and 1 plurality-Asian district with no majority. It also has 4 majority-White districts, and 3 additional plurality-White districts with no majority. The plurality and majority White districts are cut in a manner to maximize the number of people of color elected in them.

This version makes an effort to keep more local communities together within a district, particularly on the Northwest and South sides of the city.

I urge you to consider adopting this map, or some variation of it, to ensure the fairest, most equitable representation of CPS students. Our students deserve it, and it will have a multi-faceted positive impact for generations to come, including boosting our economy, improving public safety, and bettering overall quality of life.
